Career Objective

Engineering student with a strong foundation in programming and currently learning Full Stack Web Development. Interested in Artificial Intelligence and Machine Learning for future growth. Seeking a Full Stack Web Development internship to improve practical skills and gain real-world industry experience.

Education

B.Tech – Information Technology J D College of Engineering, Nagpur Current Percentage: 80%	Sep 2024 – Present
Diploma – Government Polytechnic, Nagpur	2024
Class 10 – Vinayak Rao Deshmukh High School, Nagpur	2022
Relevant Coursework: Data Structures, Object-Oriented Programming, DBMS	

Projects

Smart Mirror AI – Virtual Styler & Skin Analyzer

Technologies: Python, HTML, CSS, JavaScript

- Built an AI-based smart mirror system for skin analysis and virtual hairstyle suggestions.
- Used Python for backend logic and skin detection processing.
- Designed interactive frontend using HTML, CSS, and JavaScript.
- Implemented AI logic to provide personalized styling recommendations.

Smart Dustbin using Arduino (Hardware Project)

Technologies: Arduino, C Language, Ultrasonic Sensor

- Developed an automatic smart dustbin using Arduino and ultrasonic sensors.
- Implemented C programming to control lid opening/closing based on object detection.
- Designed a touchless waste disposal system to improve hygiene and automation.

Technical Skills

Programming Languages: C, Python

Web Technologies: HTML, CSS

Developer Tools: VS Code, Jupyter Notebook, Google Colab, Canva

Libraries: NumPy, Pandas, OpenCV

Certifications

- AICTE EduSkills – Java Virtual Internship
- NPTEL – Soft Skills and Personality Development
- C Programming Certification
